Dear Mr. Leedy:

Re: Hazardous Waste Facility  
Operating Permit Application  
Johnson Controls  
IND 009549593

This will acknowledge receipt of your application on March 17, 1982, for a state hazardous waste facility operating permit under 320 IAC 4.

Staff has completed a preliminary review of your application and found the following inadequacies:

1. A description of testing facilities as required by 320 IAC 4-9-2(c)(2) was not submitted.
2. A plan for closure of the facility as required by 320 IAC 4-9-2(c)(4) was not submitted.
3. Our records indicate that you have not established the necessary financial mechanisms for closure as required by 320 IAC 4-9-2(c)(4) and for liability insurance as required by 320 IAC 4-9-2(c)(5). The Environmental Management Board cannot issue a permit for your facility unless you establish the required financial assurance mechanisms. Failure to meet this requirement will cause the Environmental Management Board to institute legal action to close your hazardous waste management facility.
4. Proof of the financial capability of the owner and the operator of the facility as required by 320 IAC 4-9-2(c)(3) was not submitted.

The regulation governing submission of the operating permit application, 320 IAC 4-9-2, required submission of a complete application by March 20, 1982. The missing information identified above must be submitted within 30 days of the date of this letter; the Environmental Management Board reserves the right to pursue administrative action for failure to comply with 320 IAC 4-9. For your reference, a copy of the memorandum sent to you in January 1982, has been enclosed.

If THE STATUS OF YOUR FACILITY HAS CHANGED, i.e., closure, approval from U.S. EPA for withdrawal, delisting of waste, etc., since the time of submittal of your application, please notify this office in writing within 15 days of the date of this letter as to what change has occurred.

If you have any questions, please contact Mr. Bruce Palin at 317/633-0203.

Very truly yours,

A handwritten signature in cursive script that reads "Guinn P. Doyle".

Guinn P. Doyle, Chief  
Hazardous Waste Management Branch  
Division of Land Pollution Control
